WHO WE ARE

Haute Styles Academy was created to bridge the gap between creativity and commercial success in the fashion industry.

While many fashion schools focus primarily on design, Designer Academy prepares students to understand the full journey of a fashion brand — from the first sketch to the moment a garment reaches the retail floor.

Students learn not only how to design garments, but also how to build sustainable fashion businesses and navigate the real production and retail landscape.

Our mission is simple:
To prepare designers for the real fashion industry.
